The Policy Forum on Development
A unique multi-stakeholder platform for dialogue

Together for better development cooperation

The Policy Forum on Development (PFD) was established in 2013 as a space for multistakeholder dialogue on EU development policies. The PFD puts into practice the commitment of the Lisbon Treaty to maintain regular and transparent dialogue and provisions from the EC communications on Civil Society in external relations and on empowering Local Authorities, as well as international commitments to achieve development effectiveness. It is the direct result of a 14-month structured dialogue with development actors from 2010-2011, which resulted in an institutionalised space for dialogue, co-created with civil society and local authorities.

The PFD is a platform that brings together civil society organisations, including professional and business associations, local authorities, representatives of EU institutions and Member States to discuss how the European Union (EU) can best implement sustainable development in partner countries via policy and regional programming. Recent discussions of the Policy Forum have focused on Global Gateway, the implementation of the regional NDICI-Global programming, the implementation of the third Gender Action Plan (GAP III), and broader topics around an enabling environment for civil society and local governments and SDG implementation. The Policy Forum on Development offers its members a space for open and transparent dialogue. It recognises everyone's specific expertise and helps to pool and multiply their knowledge and insights for the benefit of all.

How does the Policy Forum on Development work?

The Policy Forum works via a core membership of networks to bring experience and expertise to different aspects of the EU's sustainable development discussions. Meetings and consultations are held in person and online. In addition to its core membership, the Policy Forum currently hosts a Civil Society and Local Authority Advisory Platform on the Global Gateway, a steering group overseeing a structured dialogue on the implementation of the EU's Gender Action Plan III, an online dialogue space for the Youth Action Plan, and ongoing regular consultations on regional programming.

Before each meeting, Members reach out to their constituencies to collect input and positions relevant to the subject of discussion. In this way, a variety of development actors around the world can share their input, which is reflected in the discussions and recommendations of the Policy Forum.
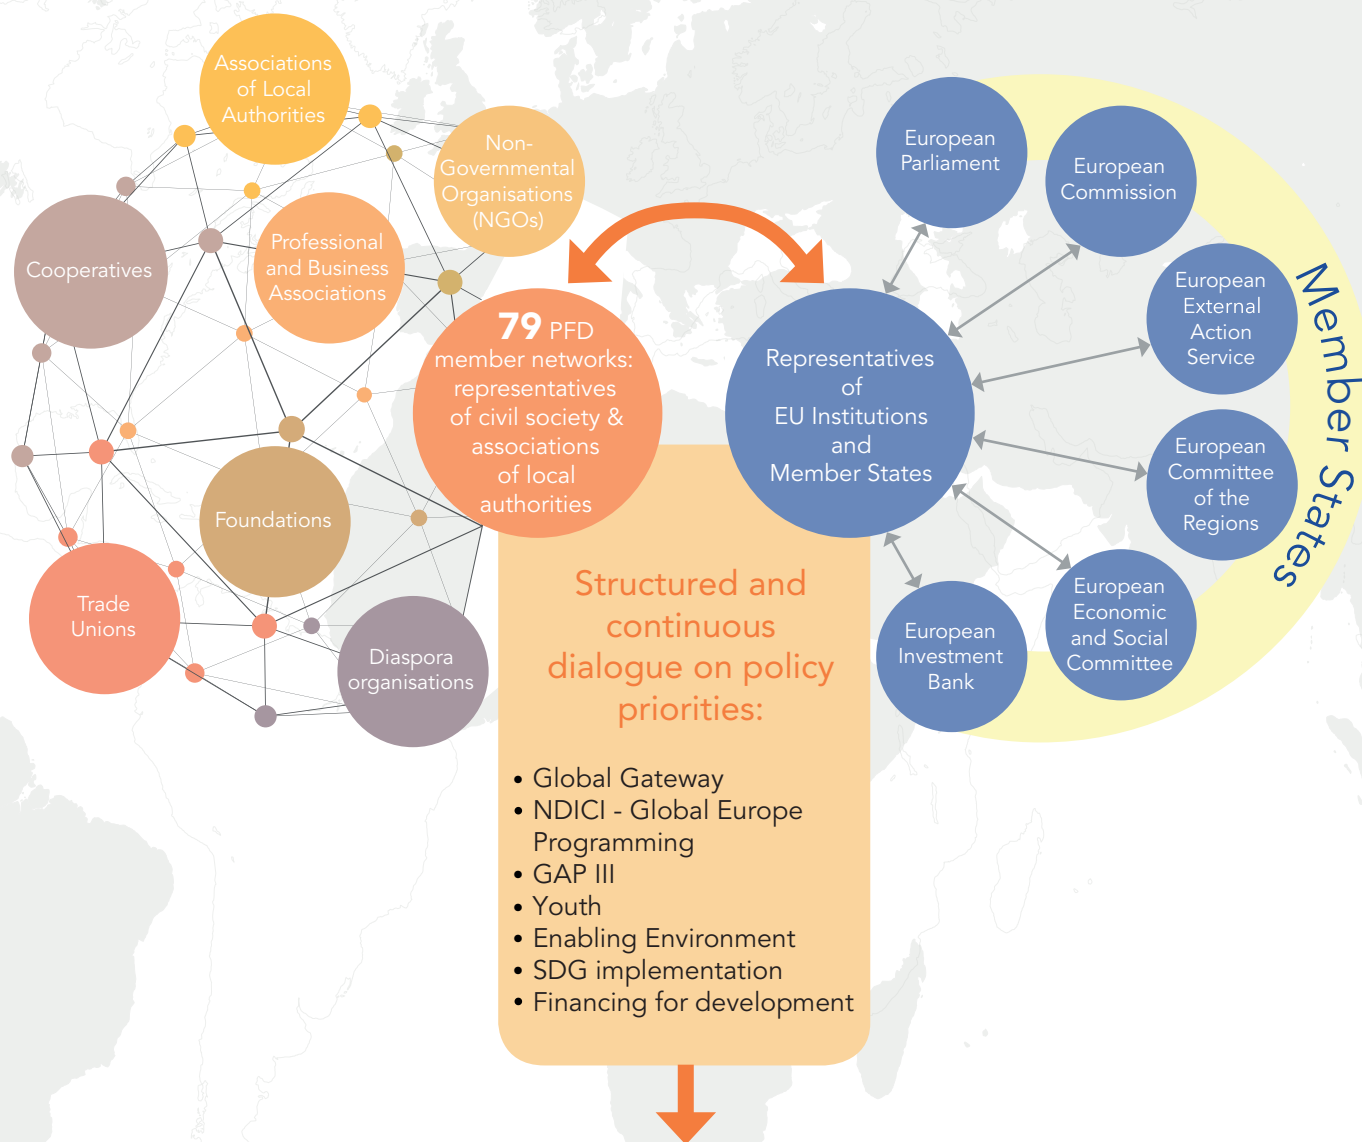

The Policy Forum is run by a Task Team made up of regional and global civil society and local authority representatives, and EU staff (INTPA G2). They work with the support of a technical assistance facility to define workplans and agendas, prepare and organise online or in-person meetings.

Policy Forum on Development

A unique space for dialogue

Associations of Local Authorities

Non-Governmental Organisations (NGOs)

Cooperatives

Professional and Business Associations

Foundations

Trade Unions

Diaspora organisations

79 PFD member networks: representatives of civil society & associations of local authorities

Representatives of EU Institutions and Member States

European Parliament

European Commission

European External Action Service

European Committee of the Regions

European Economic and Social Committee

European Investment Bank

Member States

Structured and continuous dialogue on policy priorities:

- Global Gateway
- NDICI - Global Europe Programming
- GAP III
- Youth
- Enabling Environment
- SDG implementation
- Financing for development

A global multi-stakeholder partnership to increase the effectiveness of EU development policy

The Policy Forum on Development pursues three key objectives:

• Dialogue on the crosscutting issues that civil society organisations, including professional and business associations, local authorities, and EU institutions face in their work as development actors

• Policy dialogue with exchange of information and experiences, and consultation on key European Union sustainable development policies and initiatives

• Drafting key recommendations to share with representatives of EU institutions and other key development stakeholders

Key Facts and Figures

The Policy Forum on Development currently has **79** Members:

- **42** networks of non-governmental organisations
- **15** local authority associations
- **6** professional and business associations
- **6** representatives of trade unions
- **5** representatives of cooperatives
- **3** foundation networks
- **2** diaspora groups

The Members' constituencies, networks, alliances and platforms cover 175 countries in Africa, Asia and the Pacific, Latin America and the Caribbean, the European Neighbourhood Region, and the European Union.

The members can reach out to*:

- **320+** cooperatives that represent **1.2** billion individuals in **109** countries
- **1,600** producer organisations, **50** million family farmers and **1.7** million fair trade workers and farmers in **80** countries
- **240,000+** towns, cities and regions

*based on organisations' websites and shared information
